

FIG. 1

FIG. 2

FIG. 3 is a perspective view of the device 110 showing the top surface 120, the side surface 122, and the bottom surface 124. The device 110 includes a central circular opening 130, a plurality of radial ribs 132, and a plurality of rectangular openings 134. The device 110 also includes a plurality of circular openings 123a and 123b, and a plurality of rectangular openings 125 and 126. The device 110 is shown in a perspective view, and the labels 110, 120, 122, 124, 123a, 123b, 125, 126, 130, 132, and 134 are used to identify the various components of the device.

FIG. 3

FIG. 4 is a perspective view of the device 110 showing the array of fins 140 and the central structure 130. The device 110 includes a base 120 and a top surface 125. The array of fins 140 is located on the left side of the device 110. The central structure 130 is located on the right side of the device 110. The central structure 130 includes a central hub 132 and a ring of fins 134. The central hub 132 is connected to the base 120 by a vertical support 128. The ring of fins 134 is connected to the base 120 by a horizontal support 130. The device 110 is shown in a perspective view from the left side.
